Subject: Lusher Consent Decree
[Lusher Draft-CD.08.20.15.final draft.docx](#)

As discussed in our call yesterday, I am attaching a new markup of the Consent Decree. This version accepted the changes from the last markup of the document that the parties discussed and agreed on. The redline/strikeouts shown in this document reflect the government case team's bottom line position on the CD items that remained open after our last discussion. They also reflect an effort to update the various cross-references, although we will all need to double check them and clean up any formatting glitches before finalizing the Decree for approval and signature. While we do not have final authority to agree to the terms in the attached document, the government case team is prepared to recommend them (assuming we also come to satisfactory closure on the SOW terms and schedule), and they reflect input from our managers. Also please note that there are two items described in the comments where the Agencies seek final input from the group members and are open to further discussions (see paragraphs 16.b and 24).

We look forward to receiving your responses on the CD and SOW next week.

Tom Krueger
